▪ Systems for all, all for systems ▪

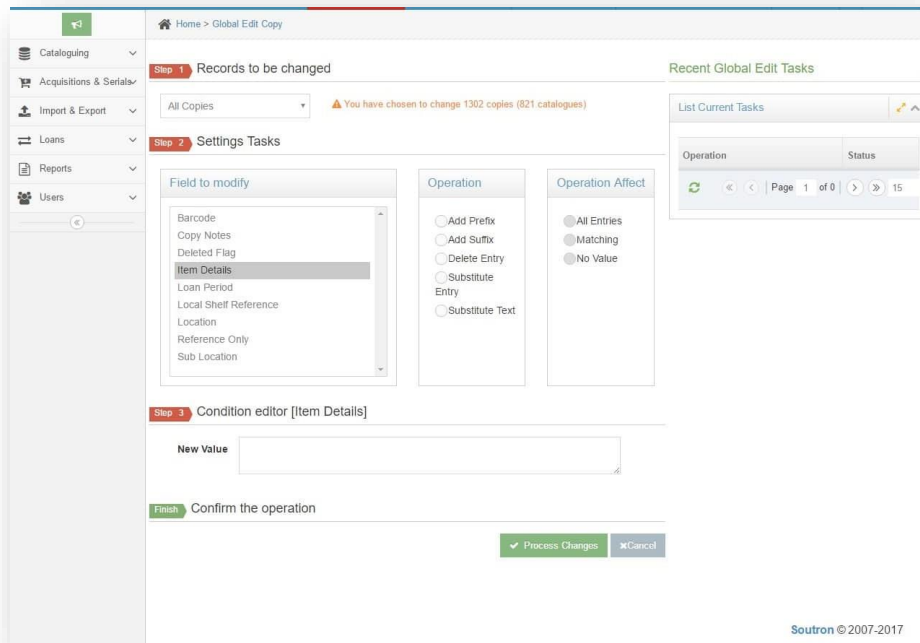

LIBRARIO

Library Management Suites

PRODUCT OVERVIEW

The system provides features to display collection lists and book lending statistics, as well as providing circulation control, cataloging, and reporting capabilities. It is also equipped with barcode printing capabilities and can be integrated with other library systems.

BOOK CIRCULATION

Ability to process borrowing and returning collections in an efficient, effective, and safe manner. Supports the reservation feature for collections that are being borrowed, including reminder/notifications that are sent out to the borrower. There is a fine management feature that can be used. In addition, the system is equipped with the ability for users to pay fines in installments. Supports the reminder feature for various purposes, such as blacklisting problematic users or running out of membership, among others. This software supports the calendaring feature to be integrated with the calculation of the loan period, fines, and so on.
